SUMMARY

Python-focused Software Development Engineer and Computer Science graduate. Built and deployed TaskFlow using FastAPI, React, PostgreSQL, Redis, WebSockets, and Docker. Experienced in REST APIs, authentication, SQL databases, and automated testing.

EDUCATION

B.Tech - Computer Science and Engineering | 2022 - 2026

Siddharth Institute of Engineering and Technology, Puttur, Andhra Pradesh | CGPA: 8.42/10

Coursework: Data Structures, Algorithms, OOP, Database Systems, Machine Learning

EXPERIENCE

Machine Learning Intern | Unified Mentor | Sep 2025 - Dec 2025

- Built a Random Forest vehicle price model on about 1,000 records using Python.
- Cleaned data, encoded categories, and tuned with 3-fold GridSearchCV; achieved R-squared of about 0.83 and RMSE of about \$6,603 on a held-out set.

Machine Learning Intern | Skill Intern | May 2025 - Jun 2025

- Built an MNIST digit classifier using a TensorFlow/Keras CNN in Google Colab; achieved about 99.4% test accuracy.
- Normalized images, encoded labels, and evaluated precision, recall, and F1-score.

PROJECTS

TaskFlow | FastAPI, React, PostgreSQL, Redis, Docker | Aug 2026 - Sep 2026 | [Live demo](#)

- Built and deployed project and task management with authentication, roles, dashboards, profiles, and activity feeds.
- Added live updates via WebSockets and Redis Pub/Sub; modeled PostgreSQL data with SQLAlchemy and Alembic.
- Built the React/Vite UI and Docker deployment on Render; tested with pytest, Playwright, and GitHub Actions CI.

URL Shortener API | Python, FastAPI, SQLite, REST API | Jul 2026 - Aug 2026

- Built and deployed FastAPI endpoints for short URLs, redirects, updates, deletion, click tracking, and statistics.
- Organized routes, services, models, and API tests; deployed on Render.

Employee & Inventory Management System | Python, SQLite, SQL, unittest | Jul 2026

- Built a CLI for employee/product CRUD, search, stock transactions, validation, and Admin/Staff roles.
- Added authentication, parameterized SQL, rollback-safe stock updates, reports, and unittest coverage.

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL

Frontend: React, Vite, HTML, CSS, Bootstrap

Backend: FastAPI, REST APIs, WebSockets, SQLAlchemy, Alembic, JWT authentication

Databases & Messaging: PostgreSQL, Redis, SQLite, MySQL

Testing & Deployment: pytest, Playwright, unittest, Docker, Render, GitHub Actions

Core CS: Data Structures & Algorithms, OOP, Database Systems

Data & ML: Pandas, NumPy, scikit-learn, Matplotlib

Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab

CERTIFICATIONS

- The Joy of Computing Using Python | NPTEL | 12-week course | 79%
- Python for Data Science Project | IBM / edX

ADDITIONAL INFORMATION

Languages: English (Fluent), Telugu (Native), Hindi (Conversational) | Interests: Software Development, Problem Solving, Machine Learning
